Tool DALL-E 3 User Prompt:

Can you please note create a new image with the same girl but now she is touching an iPad and emanating from the iPad are multicoloured waves like light beams and she looks delighted and amused. The mood should be fun and playful and the message should be the iPad unleashes creativity in young ones.

Tool DALL-E 3 System Prompt:

Modify the previously created image by adding black nerd glasses to the cute cartoon-style 40-year-old female character. Maintain the rest of the features: slightly overweight, relaxed smile, wearing a black patterned maxi dress, dark brown goddess braids hairstyle, hugging a grey Maine Coon cat. The image should continue to have a 3D render look with storybook realism style, resembling a cinematic avatar, set against a solid color purple background. Keep the proportions with a bigger head and thinner body, and the digital painting quality with big eyes.

Tool Firefly Beta 3 User Prompt:

a punk rock band featuring cute animals from a tropical rainforest lush large green leaves in the background - iguana playing guitar, armadillo on lead vocals, parrot on bass guitar, toucan on the drums - all smiling while playing their instruments, comic cartoon 2D style large eyes, multicoloured

can you create 4 images showing a sequence of first a calm sea, then lightning striking and scaring the boy, then the end of the story when he is rescued

I can create two images for you, as per the policy, showing a part of the sequence you described. Let's start with the first two parts: the calm sea and then the lightning striking, scaring the boy. After that, we can proceed with the last part of the sequence where he is rescued. Would that be okay?

Storytelling Aufgabe
Englisch-Test

6. Writing: EXPERT

Write the ending of this story using **100 words** or more. You can use the images to inspire you.

Lightning strikes – twice!

John McAlister grew up in a small village in Scotland. As a boy he loved going for walks in the hills with his friends. One day, a terrible thunderstorm started when the boys were up in the hills. There was nothing to protect them, so they lay down on the ground. Suddenly lightning flashed with a loud roar of thunder and struck the ground near the boys. But they weren't hurt. So, the next day, he decided to sail alone in his sailboat.
